

Advisory Notice

To: all students, visiting residents, agencies/traveling health care staff, contractors and any other non—UMMS employed staff.

RE: Notice regarding work related injuries

The UMMS Worker's Compensation policy covers UMMS employees only. Nonemployees injured while working must immediately report the injury to their employer. The employer's Worker's Compensation policy will be the primary payor. However, the injured worker is ultimately responsible for any medical bills not covered by their employer's Workers Compensation carrier.

It is highly recommended that non-UMMS employed workers who are seeking medical evaluation and/or treatment from UMMC or other UMMS facility for a work-related injury provide a copy of this Notice to their employer and/or their employer's worker's compensation carrier.

Volunteers:

The UMMS volunteer policy covers out-of-pocket expenses only. The volunteer's health insurance is primary. A volunteer injured while volunteering at a UMMS facility may elect to present their out-of-pocket expenses for reimbursement.
