Preface

Head Start and Early Head Start are federally funded comprehensive child development programs that serve children, birth to age 5, from low-income families. They are child-focused programs that have the overall goal of increasing the school readiness of young children.

Head Start is administered by the Head Start Bureau, Administration for Children and Families (ACF) and the U.S. Department of Health and Human Services. Grants are awarded directly to local public agencies, private non-profit and for-profit organizations, Indian Tribes, and school systems for the purpose of operating Head Start programs at the local community level.

In Maryland, these funds support 18 Head Start and Early Head Start Grantee Offices, with 20 Delegate Offices and over 250 program sites. In total, these programs serve 10,411 children from low income families. Head Start grantee and delegate agencies provide a range of appropriate, individualized services in the areas of early education, health, nutrition, and parent involvement.

The purpose of the Maryland Head Start State Collaboration Project is to influence the development of multi-agency and public/private collaborative partnerships between Head Start and other interested individuals and organizations. By working together with existing statewide organizations and initiatives, the Collaboration Project supports the increased availability of comprehensive early care and education services for low-income young children and their families.

The Maryland Head Start State Collaboration Project and Maryland Committee for Children (MCC), a long-standing advocate for early childhood education and care, have participated in a collaborative project for several years. Since, 1988, MCC has published the <u>Directory of Head Start Programs in Maryland</u>. LOCATE staff contact all Head Start programs in the state on an annual basis to gather information on locations, hours of operations, and current capacities. Additionally, the Directory contains a listing of Head Start Grantees and Delegate agencies in all jurisdictions of Maryland, as well as a listing of all program sites. Wherever possible, program directors' names, email addresses and fax numbers have been included. The Directory is current as of January 2007.

The <u>Directory of Head Start Programs in Maryland</u> can be accessed on-line at www.mdk12/instruction/ensure/readiness.org or linking to this website through www.mdchildcare.org For more information regarding this directory or to obtain additional copies, please contact:
