5.5-8 NOTICE OF FINAL DECISION

- (a) Notice of the final decision shall be promptly given to the President of the Medical Staff, the Medical Executive Committee and the Credentials Committee, the chairman of each service concerned, the applicant, and the Hospital CEO.
- (b) A decision and notice to appoint or reappoint shall include, if applicable: (1) the Medical Staff category to which the applicant is appointed; (2) the service(s) to which he or she is assigned; (3) the clinical privileges granted; and (4) any special conditions attached to the appointment.

5.5-9 REAPPLICATION AFTER ADVERSE APPOINTMENT DECISION

An applicant who has received a final adverse decision regarding appointment shall not be eligible to reapply to the Medical Staff for a period of one year from the date of the final decision. Any such reapplication shall be processed as an initial application, and the applicant shall submit such additional information as may be required to demonstrate that the basis for the earlier adverse action no longer exists.

5.5-10 TIMELY PROCESSING OF APPLICATIONS

Applications for Medical Staff appointment shall be considered in a timely manner by all persons and committees required by these bylaws to act thereon. While special or unusual circumstances may constitute good cause and warrant exceptions, the following time periods provide a guideline for routine processing of applications:

(a) evaluation, review, and verification of application and all supporting documents under Section 5.5-3 within ninety (90) days from receipt of a completed application by the Medical Staff Office.

- (b) review and recommendation by service(s) within twenty (10) days after receipt of a completed application from the Medical Staff Office.
- (c) review and recommendation by Credentials Committee within sixty (60) days after receipt of a completed application from the Medical Staff Office.
- (d) review and recommendation by Medical Executive Committee within thirty (30) days after receipt of the recommendation of the Credentials Committee.
- (e) final action by the Governing Body at its next meeting after receipt of the recommendation of the Medical Staff Executive Committee or conclusion of hearings.

5.6 FOCUSED PROFESSIONAL PRACTICE EVALUATION FOR NEW PRIVILEGES

5.6.1 The Service Chief of the applicant's primary service will define circumstances that require monitoring and evaluation of the clinical performance of each practitioner following his or her initial granting of clinical privileges. Such monitoring may utilize a range of techniques, including but not limited to: chart review, the tracking of performance monitors/indicators, proctoring, external peer review, morbidity/mortality reviews, and discussion with other colleagues. The Focused Professional Practice Evaluation Process outlined in the Credentialing Procedures Manual provides further guidance as to type of evaluation and time frame to be followed.

5.7 ONGOING MONITORING OF PRACTITIONER PERFORMANCE

- 5.7.1 Ongoing evaluation is factored into the decision to maintain an existing privilege, revise an existing privilege, or revoke an existing privilege. Practitioner-specific quality profiles using indicators approved by the Medical Executive Committee will be completed a minimum of every nine (9) months. For any medical staff member without sufficient reviewable volume at the University of Maryland Medical Center, the member will be asked to supply similar data from their primary facility. Areas to be considered include patient care, medical knowledge, practice-based learning and improvement, interpersonal skills and communication, professionalism and systems-based practice.
- 5.7.2 Medical Staff Services will coordinate the collection and review of profiles for the individual practitioners. The profiles will be forwarded to the appropriate Service Chair or Section Chief for completion which will include a recommendation as to whether privileges are to be maintained, revised or revoked. The decision will be documented in the practitioner's credentials file in the Medical Staff Services Department.
 Recommendations other than maintenance of privileges will be communicated to the medical staff member.

5.6 <u>REAPPOINTMENTS AND REQUESTS FOR MODIFICATIONS OF STAFF STATUS</u> OR PRIVILEGES

5.6-1 <u>APPLICATION</u>

- (a) At least one hundred and eighty (180) days prior to the expiration date of the current Medical Staff appointment ("Reapplication Due Date"), a reapplication form developed by the Medical Executive Committee, shall be mailed or delivered to the Member and an inquiry will be made to the National Practitioner Data Bank. The completed re-application form for renewal of appointment to the Medical Staff for the coming year, and for renewal or modification of clinical privileges shall be returned to the Medical Staff Office within 30 days of receipt.
 - (i) The reapplication form shall include all information necessary to update and evaluate the qualifications of the applicant including, but not limited to, the matters set forth in Section 5.5-1, as well as other relevant matters. All provisions of the reapplication form must be completed (or accompanied by acceptable explanations of why answers are unavailable) and signed by the applicant, with all fees (including medical staff dues) paid, ("completed application"). Upon receipt of the completed application, the information shall be processed as set forth in Article 5, commencing at Section 5.5-3.
 - (ii) If an application for reappointment is not received at least one hundred twenty (120) days prior to the Reapplication Due Date, written notice by certified mail, return receipt requested, shall be promptly sent to the Member advising that the application has not been received and further explaining that a failure to submit a fully completed reapplication form within (90) days of the Reapplication Due Date shall be deemed a voluntary resignation from the Medical Staff as described in Section 5.6-5 below.
- (b) A Medical Staff Member who seeks a change in Medical Staff status or modification of clinical privileges may submit such a request at any time upon a form developed by the Medical Executive Committee, and properly completed, except that such application may not be filed within six (6) months of the time a similar request has been denied. The Credentials Committee, through the appropriate Chief of Service, will verify that appropriate training or experience has occurred to enable the Medical Staff Member to properly exercise the requested clinical privileges. If the request is approved by the Governing Body, the Chief of Service shall set up a provisional period for the requested privileges which shall be processed as set forth in Article 4, commencing at Section 4.7-5.

5.6-2 <u>EFFECT OF APPLICATION</u>

The effect of the application for reappointment or modification of Medical Staff status or privileges is the same as that set forth in Section 5.5-2.

5.6-3 STANDARDS AND PROCEDURE FOR REVIEW

When a Medical Staff Member submits the first application for reappointment, and every two years thereafter, or when the Member submits an application for modification of Medical Staff status or clinical privileges, the Member shall be subject to an in-depth review generally following the procedures set forth in Section 5.5-3 through 5.5-10. This review will include inquires regarding ability to perform professional duties, judgment, clinical skills, and competence, and may require submission of reasonable evidence of his or her ability to perform professional duties. In the event that the University of Maryland Medical Center is not the Medical Staff Member's primary admitting institution, the applicant will be asked to provide a report issued from that institution summarizing their clinical activity. The information discovered upon review will be included in the Provider Quality Profile to be submitted for review and consideration by the appropriate Department Chairman at the time of the Member's transition from Provisional to Active status and at subsequent reappointment.

5.6-4 IN THE EVENT OF PROCESSING DELAY

If the Medical Staff Services Department anticipates that it will not complete its review of an application for reappointment by the expiration date of the Member's current appointment, and the application appears otherwise in order, the Medical Staff Services will notify the Service Chief at least 30 days before the expiration of the member's current appointment. The Service Chief may request Temporary Privileges for a limited period of time, not to exceed 120 days, while the full credentials information is verified and approved. This request may only be made for an important patient care need (such as for urgent staff coverage or specialty need). Such a request is not effective unless it is reviewed and approved by a Member of the Credentials Committee and the President of the Medical Staff and they are satisfied that the temporary privileges are acutely needed. Such temporary privileges shall not be routinely approved. Any temporary privileges pursuant to this Section do not create a vested right in the Member for continued appointment through the entire next term but only until such time as processing of the application is concluded. If no request for temporary privileges is received, the member will be notified by certified mail that his/her current appointment will expire.

5.6-5 FAILURE TO FILE REAPPOINTMENT APPLICATION

Failure, without good cause as determined in good faith by the Medical Executive Committee, to file timely a completed application for reappointment at least 90 days prior to the Reapplication Due Date as defined in Section 5.6-1 (a) above, shall result in the automatic lapse of the Member's clinical privileges and prerogatives at the end of the current Medical Staff appointment, unless the application is completed and approved prior to the expiration date. The Member shall be notified of the pending lapse in clinical privileges by certified mail return receipt requested at least 30 days before the expiration of the current appointment. The Medical Staff Services Department will also notify the Service Chief. The Service Chief may request Temporary Privileges for a limited period of time, not to exceed 120 days, while the full credentials information is verified and approved.

This request may only be made for an important patient care need (such as for urgent staff coverage or specialty need). Such a request is not effective unless it is reviewed and approved by a Member of the Credentials Committee and the President of the Medical Staff and they are satisfied that the temporary privileges are acutely needed. Such temporary privileges shall not be routinely approved. Any temporary privileges pursuant to this section do not create a vested right in the member for continued appointment through the entire next term, but only until such time as processing and the application is approved or disapproved. The lapse in clinical privileges will terminate following completion of the reappointment process. If the reappointment is not completed within 60 days after the expiration date, medical staff membership and privileges will terminate, and the practitioner will be required to reapply if desired. In the event membership terminates for the reasons set forth herein, the procedures set forth in Article 12 shall not apply.

5.7 LEAVE OF ABSENCE

5.7-1 <u>LEAVE STATUS</u>

A Medical Staff Member in good standing may take a leave of absence upon thirty (30) days prior written notice to the Medical Executive Committee stating the actual period of the leave desired, which may not exceed twelve (12) months or be less than thirty (30) days, the reason for the leave and a description of the activity that will occur during the leave. During the period of the leave, the Member shall not exercise clinical privileges at the Hospital, and membership rights and responsibilities shall be inactive, but the obligation to pay dues and assessments, if any, shall continue, unless waived by the Medical Staff. The foregoing notwithstanding, prior to taking leave, the Member must make appropriate arrangements to ensure that any then existing administrative or clinical responsibilities will be properly discharged during the period of his or her leave.

5.7-2 TERMINATION OF LEAVE

At least 10 days prior to the termination of the leave of absence, the Medical Staff Member will provide written notice to the Medical Executive Committee of his or her return from leave. If the Member's appointment has expired during the leave of absence, he or she will be deemed to have voluntarily resigned from the Medical Staff with no applicable due process rights under Article 12 hereof and shall be required to reapply.

5.7-3 FAILURE TO REQUEST REINSTATEMENT

Failure, without good cause as determined in good faith by the Medical Executive Committee, to request reinstatement within forty-five (45) days of a leave's termination shall be deemed a voluntary resignation from the Medical Staff and shall result in automatic termination of Medical Staff membership, clinical privileges, and prerogatives. A Member whose membership is automatically terminated shall be entitled to the procedural rights provided in Article 12 for the sole purpose of determining whether the failure to request reinstatement was unintentional or excusable. A request for Medical Staff membership subsequently received from a Member so terminated shall be submitted and processed in the manner specified for applications for initial appointment.

5.8 <u>RESIGNATION</u>

Medical Staff Members in good standing who wish to resign from the medical staff must submit to their Service Chiefs a written statement indicating the reason for the resignation and effective date of resignation. Completion of obligation, including transfer of patient care responsibilities, completion of medical records, and transfer of administrative duties (if applicable), is required in order for a medical staff member to be considered "in good standing" at the time of resignation.

ARTICLE 6. CLINICAL PRIVILEGES

6.1 EXERCISE OF PRIVILEGES

Except as otherwise provided in these bylaws, a Member of the Medical Staff with clinical privileges at this Hospital shall have access to the Hospital to exercise only those clinical privileges specifically granted. Said clinical privileges must be Hospital specific, within the scope of any license, certificate or other legal credential authorizing practice in this State and consistent with any restrictions thereon, and shall be subject to the rules and regulations of the service and the authority of the Chief of Service and the Medical Staff. Each practitioner shall be assigned to the primary service in which clinical privileges are granted. Clinical privileges in an additional service(s) may be requested. The Chiefs of each Service will coordinate appraisals for the granting and renewal of clinical privileges when a practitioner holds or applies for clinical privileges that are provided in more than one service.

6.2 <u>DELINEATION OF PRIVILEGES IN GENERAL</u>

6.2-1 REQUESTS

Each application for appointment and reappointment to the Medical Staff, or for temporary privileges, or a new experimental activity (see section 6.8), must contain a request for the specific clinical privileges desired by the applicant. A request by a Member for a modification of clinical privileges may be made at any time, but such requests must be supported by documentation of training and/or experience supportive of the request. Clinical privileges for procedures shall be recommended by the Chief of the service except when the Medical Executive Committee determines that certain privileges also require the recommendation of the Chief of another service.

6.2-2 BASES FOR PRIVILEGES DETERMINATION

Requests for clinical privileges shall be evaluated on the basis of the Member's prior and continuing education, training, experience, demonstrated current professional competence and judgment, clinical performance, utilization practice patterns, ability to perform, Hospital's capability (physical plant, equipment and personnel) to support the privileges requested, adequate professional liability insurance coverage, and the documented results of patient care and other quality review, risk management and monitoring which the Medical Executive Committee deems appropriate. Clinical privilege determinations may also be based on pertinent information concerning clinical performance obtained from other sources, especially other institutions and health care settings where a Member exercises, or exercised, clinical privileges.

6.3 <u>CONDITIONS FOR PRIVILEGES OF DENTISTS</u>

6.3-1 ADMISSIONS

Dentists who are Members of the Medical Staff may admit patients, if a physician Member of the Medical Staff agrees to conduct or directly supervise the admitting history and physical examination (except the portion related to dentistry). The member physician will assume responsibility for problems, present at the time of the admission or which may arise during hospitalization, which are outside of the dentists' scope of practice. An oral-maxillofacial surgeon may perform the admitting history and physical examination and assess the medical risk of a proposed procedure if they are privileged to do so, and only when the oral-maxillofacial surgeon's examination of the patient and review of the medical records supports the conclusion that the patient is not currently suffering from a medical condition requiring the attention of a physician.

6.3-2 CLINICAL PRIVILEGES

The clinical privileges for surgical procedures of each dentist shall be recommended by the Chief of the Dental Service except when the Medical Executive Committee determines that certain surgical privileges also require the recommendation of another appropriate Chief of Service.

6.3-3 <u>MEDICAL APPRAISAL</u>

Where a dispute exists regarding proposed treatment between a physician Member and a dentist (or qualified oral-maxillofacial surgeon) based upon medical or surgical factors outside of the scope of licensure of the dentist, the treatment will be suspended insofar as possible while the dispute is resolved by the appropriate services.

6.4 <u>CONDITIONS FOR PRIVILEGES OF PODIATRISTS</u>

6.4-1 ADMISSIONS

Podiatrists who are Members of the Medical Staff may only admit patients if a physician Member of the Medical Staff agrees to conduct or directly supervise the admitting history and physical examination (except the portion related to podiatry), and will assume responsibility for problems, present at the time of the admission or which may arise during hospitalization, which are outside of the podiatrist's lawful scope of practice.

6.4-2 **SURGERY**

Surgical procedures performed by podiatrists shall be under the overall supervision of the Chief of the Surgery Service, or the Chief's designee.

6.4-3 MEDICAL APPRAISAL

All patients admitted for care in the Hospital by a podiatrist shall receive the same basic medical appraisal as patients admitted to other services, and a physician Member, upon arrangement by the podiatrist, shall determine the risk and effect of any proposed treatment or surgical procedure on the general health status of the patient. Where a dispute exists regarding proposed treatment between a physician Member and podiatrist based upon medical or surgical factors outside of the scope of licensure of the podiatrist, the treatment will be suspended insofar as possible while the dispute is resolved by the appropriate service.

6.5 CONDITIONS FOR PRIVILEGES OF CLINICAL PSYCHOLOGISTS

6.5-1 ADMISSIONS

Psychologists who are Members of the Medical Staff may not admit patients to the Hospital.

6.6 <u>TEMPORARY & VISITING TEMPORARY CLINICAL PRIVILEGES</u>

6.6-1 CIRCUMSTANCES

- (a) Necessary Conditions: Following the procedure in Section 6.6-2, temporary privileges may be granted to a practitioner when:
 - i. There is a specifically documented urgent patient care need that mandates an immediate authorization to practice as determined by the Service Chief, President of the Medical Staff and Hospital Chief Executive Officer, or his/her designee. Such privileges may be granted for a specified period, no more than 120 days, while full credentials information is verified and approved. Such person may provide coverage, for a period not to exceed the period specified.
 - ii. An applicant for Medical Staff membership or privileges has completed the application, primary source verification/processing has been completed by Medical Staff Services, and the applicant is waiting for review, recommendation and approval by the organized Medical Staff and governing body. Applicants may not be considered for temporary approval in this situation if there is a current or previously successful challenge to licensure or registration, involuntary termination of medical staff membership or limitation, reduction, denial or loss of clinical privileges at another institution, or any unusual pattern of or excessive number of professional liability actions resulting in a final judgment against the applicant.

(b) Visiting Temporary Privileges: Upon written request by the Service Chief, an appropriately licensed practitioner who is not an applicant for membership may be granted temporary privileges for the care of one or more specific patients after having satisfied the conditions listed in this section. Such privileges shall be restricted to not more than thirty (30) days during a calendar year provided that the procedure described in Section 6.6-2 has been followed.

6.6-2 <u>APPLICATION AND REVIEW</u>

- (a) Upon receipt of a completed application from a practitioner authorized to practice in Maryland, the Governing Body, acting through the Hospital CEO or his or her designee, may grant specific temporary privileges for a specific period of time to a practitioner who has qualifications, ability and judgment, consistent with these bylaws, and consistent with State law, but only when the President of the Medical Staff, after reviewing the applicant's file and consulting with the appropriate Chief of Service, makes a favorable recommendation to grant specific privileges for a specific period of time.
- (b) If the practitioner requests temporary privileges in more than one service, written concurrence shall first be obtained from the appropriate service chief and forwarded to the President of the Medical Staff and the Hospital CEO.

6.6-3 GENERAL CONDITIONS

- (a) All practitioners requesting or receiving temporary privileges shall be bound by the bylaws, rules and regulations and policies of the Medical Staff.
- (b) If granted temporary privileges, the practitioner shall act under the supervision of the service chief to which the practitioner has been assigned, and shall ensure that the chief, or the chief's designee, is kept closely informed as to his or her activities within the Hospital.
- (c) Temporary privileges shall automatically terminate at the end of the designated period, unless earlier terminated by the Medical Executive Committee upon recommendation of the service chief or the Credentials Committee.
- (d) Requirements for monitoring may be imposed on such terms as may be appropriate under the circumstances upon any practitioner granted temporary privileges by the Governing Body, acting through the Hospital CEO or his or her designee, after consultation with the service chief or his designee.
- (e) Temporary privileges may be immediately terminated at any time by the Hospital CEO or the President of the Medical Staff. In such cases, the appropriate service chief shall assign him or herself or a Member of the

Medical Staff to assume the responsibility for the care of such practitioner's patient(s). The wishes of the patient shall be considered in the choice of a replacement Medical Staff Member.

(f) A practitioner shall not be entitled to the procedural rights afforded by Article 12 because a request for temporary privileges is refused or because all or any portion of temporary privileges are terminated or suspended.

6.7 DISASTER PRIVILEGES

6.7.1 DISASTER PRIVILEGES

Practitioners who are not members of the medical staff of the University of Maryland Medical Center a disaster (defined as any officially declared disaster, whether it is local, state or national), for which the institution's emergency management plan has been activated.

In the case of a disaster, the President/CEO, or his/her designee (including the Incident Commander), after conference with the President of the Medical Staff (or his/her designee) shall have the authority to grant disaster privileges applicable to the situation to a practitioner, regardless of whether or not he/she is a member of the Medical Staff or has delineated Clinical Privileges. Following compliance with the Credentialing of Physicians in the Event of a Disaster Policy, the granting of disaster privileges shall be based on the opinion of the President of the Medical Staff (or his/her designee) as to the qualifications, competence and ethical standing of the practitioner to appropriately exercise the temporary disaster privileges. These disaster privileges will be for the period needed for the duration of the disaster only.

6.8 EMERGENCY PRIVILEGES

6.8.1 In the event of an emergency, any practitioner shall be permitted to do whatever is reasonably possible to save the life of a patient or to save a patient from serious harm. Such persons shall promptly yield such care to Members of the appropriate service of the Medical Staff when such persons become reasonably available.

6.9 NEW OR EXPERIMENTAL PROCEDURES

A practitioner may not perform or use a new, untried or unproven procedure, treatment, instrument or item of equipment ("New Procedures") until granted appropriate clinical privileges for the same. New Procedures are those that cannot easily be derived or extended from existing accepted procedures or skills. An untried, experimental activity (experimental drug, diagnostic procedure, test, operative procedure, therapy or so on) may be undertaken in the Hospital, provided a specific and comprehensive experimental protocol for the experimental activity has been approved by the appropriate institutional Review Board, or equivalent body of the University of Maryland at Baltimore. All experimental activities are the responsibility of the Chief of Service.

6.9.1 NO DUE PROCESS

In the event a New Procedure or experimental protocol is not approved or any clinical privileges required by either are not granted, the procedural rights under Article 12 will not apply.

6.10 SPECIAL TRAINING PRIVILEGES

6.10.1 GENERALLY

Special Training Privileges are clinical privileges extended for a short time to a practitioner who is neither a member of the Medical Staff nor intends to apply for Medical Staff membership, but is interested in training under a UMMC faculty member for a specific procedure.

6.10.2 <u>ELIGIBILITY AND OBLIGATIONS</u>

To be eligible for Special Training Privileges, the practitioner must hold a current license to practice his/her discipline in the State of Maryland, or in the case of a practitioner who resides in another jurisdiction, he/she shall otherwise satisfy the legal requirements of practicing medicine, dentistry, podiatry or psychology in this State as follows:

- (a) Hold a current license to practice medicine in another jurisdiction, in which case Special Training Privileges granted pursuant to this section shall be limited by the requirement that the physician's practice in the Medical Center be performed under supervision of a member of the Active Medical Staff; or
- (b) Produce a certificate of professional liability insurance in accordance with limits agreed upon annually by the Board;
- (c) Provide the names of medical institutions where he/she holds current privileges;

The clinical privileges so granted shall not exceed those granted by the medical institution at which the Practitioner holds primary affiliation.

6.10.4 PROCEDURAL RIGHTS

The denial of requested Special Training Privileges does not entitle the individual requesting such privileges to any of the procedural rights provided in these Bylaws.

6.11 MODIFICATION OF CLINICAL PRIVILEGES OR SERVICE ASSIGNMENT

On its own or upon recommendation of the Credentials Committee, the Chief of Service, the Medical Executive Committee may recommend a change in the clinical privileges of a Member. The Medical Executive Committee may also recommend that the granting of additional privileges to a current Medical Staff Member, such as is provided for in Section 5.6.1(b), be made subject to monitoring. Action on such recommendation shall follow the procedures substantially as set forth in Section 5.5.

6.12 <u>LAPSE OF APPLICATION</u>

If a Medical Staff Member requesting a modification of clinical privileges or service fails to furnish, in a timely fashion, the information necessary to evaluate the request, the application shall automatically lapse, and the applicant shall not have procedural rights under Article 12.

6.13 <u>TELEMEDICINE</u>

Telemedicine involves the use of electronic communication or other communication technologies to provide or support clinical care at a distance. Practitioners who render a diagnosis (excluding those who provide official readings of images, tracings, or specimens through contracted services) or otherwise provide clinical treatment to a patient at the University of Maryland Medical Center are credentialed and privileged through the medical staff mechanisms set forth in Article 6 of these Bylaws. This institution may use credentialing information from distant site (where the practitioner is located) if said site is another Joint Commission accredited facility, which meets the same standards as set forth in Article 6. The decision to delineate privileges will be made by this institution. Consideration of appropriate utilization of telemedicine equipment by the telemedicine practitioner is encompassed in clinical privileging decisions.
